## Special Free Meson Seminar

- Speaker* : Jan Kalinowski  
(Warsaw University)
- Topic* : Phenomenology of R-symmetric  
supersymmetric standard model
- Day, Date & Time* : Thursday, August 18, 2011  
at 4:00 p.m.
- Place* : Theoretical Physics  
Seminar Room (A304)

### *Abstract*

I will discuss motivation for and salient features of the R-symmetric realisation of supersymmetric extension of the Standard Model. Possible signatures of Dirac gauginos and adjoint scalars of the model at the LHC and ILC/CLIC will be discussed.
