Free Meson Seminar

Speaker	:	Tomohisa Takimi
Topic	:	A lattice formulation of 4 dimensional N=2 supersymemtric Yang-Mills theories
Day, Date & Time	:	Thursday, July 19, 2012 at 2:30 p.m.
Place	:	AG 69

Abstract

A non-perturbative formulation of 4 dimensional N=2 supersymmetric Yang-Mills theories will be discussed. After a review of supersymmetric lattice formulations I will explain this new formulation.
