Joint Free Meson – DAA seminar

- Speaker* : Parthasarathi Mitra
(SINP, Kolkata)
- Topic* : Black holes, white holes
and tunnelling
- Day, Date & Time* : Thursday, March 6, 2008
at 2:30 p.m.
- Place* : AG 69

Abstract

The study of tunnelling across black hole horizons, which has been used to explain emission from black holes, also leads to the absorption of matter by white holes, a classically forbidden process.
